

St. John's Preschool is available for children who are three months to four years of age. Children are placed into classrooms based on age as of September 1st. Each classroom has two teachers. All teachers and staff have had a background check and are CPR, and First Aid certified. Our 4K and Special Needs lead teachers have a degree in Early Childhood, Elementary Education, or Special Education.

St. John's Preschool's mission is to provide a safe, nurturing Christian environment that encourages each child's intellectual, physical, social, emotional, and spiritual development through play and active learning.

The children are provided with opportunities to learn through hands-on experiences by using various manipulatives, art, stories, puppets, songs, music, cooking, gym time, and outside play. Newsletters and calendars are sent home to inform parents of up-coming classroom activities, themes, and important dates and events. Children will go to music, Spanish and yoga lessons, and chapel for short devotionals.
